Xerox® WorkCentre™ 3655 Multifunction Printer

Stay one step ahead.

In order to stay competitive you need to do more – for less. Processes need to be simplified. People need to work more productively and the solution needs to be cost effective. Xerox can help you do that.

As your technology partner, Xerox understands that success is measured by results. Xerox will build a total solution to resolve your challenges and help you meet your goals, offering you innovative ways to maximise efficiency and minimise costs.

Giving you the time to concentrate on what matters. Your business. The solution: Xerox® ConnectKey® Technology and our Xerox® WorkCentre™ 3655.

Real cost savings for the real world.

Your business depends on keeping costs in check. The innovative tools in the Xerox® WorkCentre™ 3655 give you a competitive edge, minimise costs, simplify the way you manage printing and provide a significant return on your investment.

- **Customise your print driver settings for economy and efficiency.** For example, choose N-up for printing multiple pages on a single sheet as your default.
- **Billing simplified**. Automatically submit meter reads and automate replenishment of supplies. The WorkCentre 3655 connects to the network to streamline the billing process.
- **Print responsibly.** By default, our print driver is set to two-sided printing.
- **Save costs and energy.** IT operations and facilities can realise significant cost savings utilising ConnectKey enabled multifunction printers. Our multifunction printers are compatible with energy management solutions such as Cisco® Energywise enabling measurement and fine-tuning of power usage.
- **Device usage management**. Gain greater cost control of all device functions with reports from Xerox® Standard Accounting. For larger offices, advanced solutions from Xerox Alliance Partners deliver even more helpful tools to manage and track usage.
- **No unnecessary printing.** The Hold All Jobs Queue feature ensures jobs are printed only when released by the user at the device.

Keep your costs under control.

User Permissions allow the ability to restrict access to print features by user, group, time of day, or by application. For example, rules can be set so that all Microsoft® Outlook® emails automatically print in duplex mode.

Secure your data.

Don't compromise your data. Safeguard your devices, your data and your business with the most comprehensive range of features, technologies and solutions from security industry leaders to ensure your data remains solely yours.

- **Protect against data breaches.** Compliant with the 256-bit AES FIPS 140-2 standard, the Xerox® WorkCentre® 3655 Multifunction Printer safeguards all sensitive data with encrypted PDF files for scanning and hard drive encryption. You can also ensure total deletion of all data fragments with a 3-pass image overwrite feature.
- **Keep unauthorised users out.** Xerox user permissions, network authentications, IP filtering and smart card features ensure that only authorised users have access to the device.
- **Stay ahead of security threats.** Xerox proactively monitors security clearinghouses for new threats as they emerge and provides patches when needed. This ensures that your device's security is current and your data is safe. In addition, you can receive up-to-the-minute RSS feeds and stay informed via www.xerox.com/security.
- **Stay current and compliant.** Whether you work in government, finance or healthcare or other industries, WorkCentre 3655 devices comply with the latest security standards including Common Criteria (undergoing evaluation), HIPAA, Data Protection Act, COBIT and more.
- **Achieve total visibility.** By providing total visibility into your device and network, the WorkCentre 3655 prevents IP theft and ensures non-repudiation. With security policy management and tracking of all activity on the device with Audit Log, you can know who accessed what and when.
- **Secure Print**. This feature requires users to enter a passcode to enable the printing process. Documents not printed within a specified time will be deleted.

McAfee CISCO

Powerful Partnerships

The WorkCentre 3655 includes McAfee® technology integration, resulting in the industry's first lineup of multifunction printers that protect themselves from potential outside threats. McAfee's whitelisting technology ensures only safe, pre-approved files or functions are executed on your devices, minimising the need to manually update software levels against new security threats. Also, seamless integration with the Xerox® Managed Print Services toolset and McAfee ePolicy (ePO) allows for easy tracking and monitoring.

Plus, automatic Cisco® TrustSec Identity Services Engine (ISE) integration provides comprehensive visibility of all ConnectKey enabled multifunction printers' endpoints to enforce IT-centric security policies and compliance.

A better way of working.

It's not enough to keep up with the competition. The Xerox® WorkCentre™ 3655 provides you with the technology to simplify routine tasks and automate workflows, all while making your team more efficient and therefore more productive.

- **Xerox® Global Print Driver®.** This print driver is truly universal. One single driver enables IT administrations to install, upgrade and manage Xerox® and non-Xerox devices. The core features and functionality are the same across all devices simplifying use for the end-user. Faster proficiency and fewer mistakes reduce support calls while also simplifying print services management.
- **Print priority.** Eliminate extended printing delays with the convenient Print Around feature. It will automatically hold a job in need of resources (such as a different paper size) and print the next job in the queue.
- **Speed up your setup.** Clone and distribute Xerox® WorkCentre™ 3655 device configurations, eliminating the need to address each device individually.
- **Single Touch Scanning.** Use the Single Touch Scan feature to create a dedicated, easy-to-locate scan button directly on the colour touch screen interface. Assign the Single Touch Scan button its own scanning workflow for fast document distribution and archiving.

Extend Your Possibilities

Whether scanning and managing documents on your office network or a hosted cloud on the Internet, you can access scan workflow solutions right from any WorkCentre 3655 thanks to the power of Xerox® Workflow Solutions, built on our Xerox Extensible Interface Platform®.

- **Xerox® ConnectKey® for SharePoint® or Xerox® ConnectKey® for DocuShare®.** Scan files directly into Microsoft® SharePoint or Xerox® DocuShare® and other Windows® folders. Plus, you'll go beyond basic file storage and PDF c reation by automatically converting documents to intelligent, structured data with easy file naming and routing tools.
- **Xerox® ConnectKey Share to Cloud.** Our cloud-based scanning solution provides easy, secure, scalable scanning to popular cloud-based repositories such as Google Docs™, SalesForce.com, Office 365 and Dropbox™, using custom-designed workflows that leverage our Xerox Extensible Interface Platform® technology.

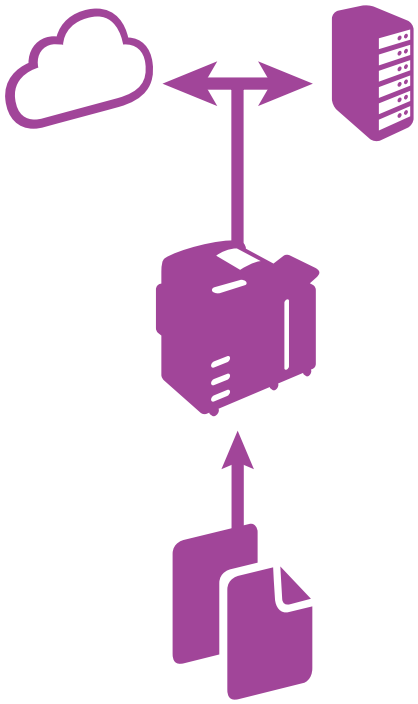
* Optional solutions may vary by geography.



Work from anywhere.

Your office is wherever you are. Work where you want and when you want without missing a beat. The Xerox® WorkCentre™ 3655 is accessible, easy to use, convenient and enables you to work faster. Stay seamlessly connected to the tools that help you do business. No matter where you are.

- **Convert paper documents.** Scan documents to create text-searchable PDFs, single and multipage PDFs, and ISO standard PDF-A documents for easy archiving, organising and searching.
- **Simplifying day-to-day tasks.** The WorkCentre 3655 provides a high level of support for specialised print applications. Including Annotation, Bates Stamping, ID Card Copy, tab print capability and page-level programming.
- **Apple® AirPrint.** Print email, photos and important office documents directly from your Apple iPhone® or iPad® with no drivers to install and no cables to connect. With AirPrint, your iPhone or iPad automatically locates and connects to the AirPrint-enabled WorkCentre 3655 device over your office Wi-Fi network.
- **Leading-edge user interface.** The colour touch screen user interface features the look, feel and bright, intuitive icons you've become accustomed to with Xerox® technology. The highly accessible screen enables you to access all major functions directly from your home screen.
- **Optional Wi-Fi connectivity.** Optional Wi-Fi connectivity lets administrators connect the WorkCentre 3655 anywhere, without the need for network cabling.
- **Mopria™ certified.** Mopria certification simplifies the mobile printing experience for tablets and smartphones to many printing devices, including the WorkCentre 3655 Multifunction Printer.

Remote Control Panel

Operate the Xerox® WorkCentre™ 3655 user interface with the Remote Control Panel feature from anywhere. Whether you're standing in front of the device or hundreds of miles away. Train users and configure device settings remotely with the confidence that integrated security allows only a single operation at a time.

Xerox® ConnectKey® Apps open up new possibilities.

- **Communicate with ease.** Deploy informational apps, such as promotions and company messages that appear on the multifunction printer's user interface. Include text and graphics, as well as logos and QR codes.
- **Remove complexity from repetitive workflows.** Create quick and easy workflows or shortcuts by adding them to the top level of the user interface for added convenience and faster access.
- **Leverage your investment.** Extend the capability of the Xerox® WorkCentre™ 3655 without the need for servers, software or user training.
